Excitement in Washington.

Impeachment Report at 1 P. M.

The Galleries Crowded With Spectators.

Resignation of Thad. Stevens.

WASHINGTON, March 4, 12:30 P. M.

The Board of Managers will present the articles of impeachment to the Senate in half an hour. The galleries are crowded, and the excitement is hourly increasing.

It is reported that Thad. Stevens has resigned his position on the committee.

A communication was received from Chief Justice Chase, dissenting from the Senate's views that the managers can be received and any act done except as a Court of Impeachment, but will abide the decision of the Senate. Referred to the committee of seven.

HOUSE.

The impeachment managers appeared at 1 P. M. followed by members of the House. Mr. Bingham presented the articles of impeachment, which were read. The bill authorizing the employment by the Secretary of War, of Council to defend persons enforcing the reconstruction act, is a law without the President's approval.

Charter Elections.

Charter Elections held recently in the State of New York, show large Democratic gains since last fall. The following towns have given increased majorities and elected their ticket: Troy, Rochester, Utica and Elmira, Batavia, Corning, Amsterdam, Palmyra, Fulton, Lancaster, and Tonawanda. In others the Republicans carried the day.

The prospects are fair for carrying the State of New Hampshire, notwithstanding the fact that our youthful representative, I. Donnelly, with his usual grand "flourish of trumpets" proclaimed in every speech in New Hampshire that any man that votes the Democratic ticket is a traitor and cannot be trusted. Indications show that the people have finally resolved to throw the corrupt party overboard that now "rules and ruins" the Country. The Democratic State Committee of New Hampshire, estimate a small majority. Next Tuesday will decide the matter, we look for a very close vote. Last year the State gave about 4000 Republican majority.

Radical Disregard at Law.

It is provoking, as well as somewhat amusing, to witness the radical professions of reverence for law, and their affected horror at Mr. Johnson's alleged violation of a clause in the Civil Tenure Act, when for years they openly endorsed the most flagrant infractions of the Constitution, and violated every law that stood in their way. "If the law is in the way, so much the worse for the law," said Sumner, and the sentiment was caught up by the "little creatures," and echoed throughout the land, and made an axiom of conduct for every radical that happened "to be clothed in a little brief authority." The Supreme Court of the United States has done little else since the close of the war, than to review their acts and declare them unconstitutional, and has scarcely made a beginning of the work. And yet they are horrified at the attempt of the President to vindicate his constitutional prerogative. Gentle Thad. Stevens, who declared the reconstruction acts "outside the Constitution," i. e. in derogation thereof, now deems the President to impeachment and deposition, with all the coolness of a life-long "defender of the Constitution." The pretended violation of the civil tenure act is the boldest subterfuge of the most lawless and infamous legislature that ever disgraced and oppressed any nation in the world, and will be so regarded by posterity. Pioneer.

Legislative Topics.

Both houses yesterday transacted a large amount of business. We refer to proceedings, having no space to comment on them.

The Senate in Committee of the Whole, both in the afternoon and evening session, was occupied, some time in discussing the proposition introduced by Senator Baxter, for taking national lands. Senators Baxter and Gordon supported the bill, and Senator Franklin opposed it.

Democratic State Committee.

Upon motion of Mr. La Due of Winona at the late Democratic State Convention, the State Committee was changed so as to consist of one from each Senatorial district, the Committee to select its own Chairman. The following gentlemen compose the Committee, with Judge Flandrau as Chairman.

1st District—J. B. Brislin.

2d District—J. N. Castle.

3d District—A. J. Reed.

4th District—William Lachren.

5th District—Charles B. Flandrau.

6th District—A. C. Riggs.

7th District—Segrave Smith.

8th District—G. W. Baxter.

9th District—J. C. Pierce.

10th District—W. B. Lutz.

11th District—J. J. Green.

12th District—W. L. Breckinridge.

13th District—H. L. Buell.

14th District—W. H. Edwards.

15th District—A. S. Everest.

16th District—H. J. Wall.

17th District—J. C. Wise.

18th District—William Henry.

19th District—E. St. Julien Cox.

20th District—Geo. B. Kingsley.

21st District—Fred. Du Toit.

22d District—M. R. Pendergast.

Taxation of Railroad Lands.

Hon. F. R. E. Cornell, Attorney General, in answer to a resolution of the House asking his opinion upon the question of taxation of lands granted by Congress to the State to aid in the construction of certain railroads, expresses an opinion adverse to the right of the State to tax the lands and property belonging to any railroad company created and organized under a charter obtained prior to our State Constitution, containing a provision exempting such property from taxation in consideration of an annual payment of a portion of its earnings. This provision is in the nature of a contract, obligating the State to receive and the company to pay annually a certain percentage of its earnings in lieu of all taxes, and the contract cannot be changed or modified except by mutual consent. Pioneer.

Immigration.

This subject received some attention yesterday in the House. The sum of \$3,000 was inserted as an Immigration Fund. We believe that the sum of ten thousand dollars could be judiciously used to advertise our State. Indeed, as citizens of the State, and interested in its prosperity, we would much prefer to see this matter receive more aid, even if some other appropriations had to be slightly lessened. We fear the small sum of three thousand dollars will make but a sorry showing, especially if it has to be split up into printing and circulating pamphlets in three or four languages. Twenty thousand dollars, if rightly used, would be a good investment for our young State. Pioneer.

Information Wanted.—Of Henry Wells, son of Tunis Wells. When young he lived Scholastic Co., N. Y., afterwards in Illinois, and when last heard from he had gone to Minnesota. Any person knowing anything of him whether living or dead will confer a favor to the heirs of Wm. Conner, deceased, by writing to Pamela Conner, administratrix, Keokuk, Iowa. Scholastic Co., N. Y. State papers please copy.

If the radicals desire to precipitate a revolution, or civil war, little New Jersey proposes to know what the fighting is for this time. The following resolution was passed by a large majority in the House of Representatives:

Whereas, The country is in a period of peril and surrounded by a cloud of affairs which may precipitate a revolution at any moment, therefore be it resolved, That the committee on Military Affairs be and they are authorized to inquire and report to this House the number, caliber and condition of the ordnance and ordnance stores in the possession of the Quartermaster General at the State Arsenal and elsewhere under his control.

This resolution was quite unexpected, and caused considerable stir, not only among the radical members but in the lobby.

It is, however, only a result of the desire that seems to be spontaneous and unanimous to assure the President of the sympathy of the State of New Jersey with his action, and their determination to sustain him at all odds in every way possible.

Legislative Topics.

In the Senate, the result on submitting the question of negro suffrage again to the people, passed by a strict party vote.

The resolutions from the committee on Federal Relations, approving of the impeachment and deposition of the President, passed by a party vote. Mr. Becker, the majority of the committee, presented an able report, which will be found in the proceedings.

A bill was passed in the Senate giving the Attorney General \$10 per day for attendance in court. This is in addition to his regular salary.

Can. Thomas Smith has been nominated as Secretary of War.

DIED.

In Carver March 4, 1868, of Typhoid Fever Melville Noyes, aged 24 years. We were surprised and greatly grieved to hear of our young friend's death. He was a companion with us in the United States service, and continued therein a brave and good soldier until sickness rendered it necessary for his discharge. On his recovery he immediately re-enlisted and continued in the service of the Government until the close of the war. After the war he engaged in business in the oil region in Penn. he closed up his business there a few weeks since, and started for home, he was taken sick while on his journey and it was with difficulty he reached his mother's family, he died however, but the cold hand of death had clasped him for a victim, and in ten days he passed to the eternal world.

Melville was a young man of uncommon promise, strictly honest, courteous, a favorite of all who knew him, possessed all the characteristics of a true Christian. His death will fall heavily upon his wide-spread mother, his brothers and sisters, and all his associates.

ANOTHER STORM.—We were visited with another severe storm last Sunday, which blocked up our thoroughfares somewhat for a few days, but they are in order again.

RENTED.—Our indefatigable merchant Henry Young has rented the stand of Daniel Stone, now occupied by Thies & Salter and is fitting it up preparatory to filling it, with a mammoth stock of goods on the first of April.

THAT BILL.—To quiet the fears of our citizens we would state that the bill introduced for a state road from Merriam Station to some point between Carver and Chaska, has been withdrawn upon request of Senator Griggs, and is consequently "out of sight" for the present.

TRADE.—Owing to the almost impossible state of the roads leading out of town, business has been very dull for some time past. Wood and Hoop-pole trade very dull. Wheat brings \$1.50 per bushel with light sales. As soon as the roads are in good condition again we look for a resumption of business in all branches.

AROUND.—We see our bargemen around, we presume with a view of getting everything in "tip-top" shape for opening of navigation in the spring, although from appearances of the weather at present they will have to wait some time yet for the coming of navigation.

HOME AGAIN.—We have the pleasure of recording the safe return of our townsman John Neunsinger, after an absence of several months, in Germany, visiting relatives. He brought several of his friends with him, who intend becoming residents of our County.

FINISHED.—The bridge built by the Railroad company over the lake this side of Merriam Station is about finished and we understand, at last.

The Evening Press.

The first number of the Evening Press was received on Tuesday this week. It is a neat six column daily, intensely radical in politics, but still evincing much ability in its editorial columns. Subscription rates \$1.00 per quarter. Address Press Printing Company St. Paul, Minn.

COOPER SHOPS.—We are informed, that our Coopers have had to suspend operation for some time past, on account of not being able to get timber to keep them at work.

ON TIME.—Notwithstanding the very storm last Sunday, conductor Messer made his regular trips on time, as he always does, when within the power of human being so to do. We'll bet our bottom dollar on Messer in any position in railroading he certainly has no equals in Minnesota. Ride with Messer by all means.

COUNTY BOARD.—The County Board was in session four days, and went through a large order of business. The proceedings will appear in our next issue.

New Goods.—Messrs. Faber & Linenfelser are in receipt of new invoice of Dry Goods. Don't fail to call and see them.

SIGNATURE.—The Legislature adjourned some day on Friday evening.

The St. Paul Dispatch.

The first few numbers of this able evening daily have been received. It is republican in politics, and supports Gen. Grant for the Presidency. It pays full attention to home news as well as foreign. It is conducted by Messrs. Ramsey, Hall & Cunningham Bros. all high-toned gentlemen, and we bespeak for it a large share of the patronage of the republican party. Barring its politics we wish it success.

The Weekly Dispatch will be a large quarto sheet, filled with the choicest articles from the daily, and furnished at the remarkably low price of \$1.50 per year. The price of the daily is \$5 per year—seven dollars less than the morning dailies now published in St. Paul.

Reliance Work.

We publish in another column the advertisement of the above works, conducted by Messrs E. P. Allis & Co., Milwaukee, Wis. This firm is known throughout the North west, as being one of the most reliable and extensive establishments of the kind in the west. We therefore merely call the attention of our business men, requiring anything in their line, to their establishment.

KELLY'S WEEKLY.—This beautifully illustrated, and ably conducted Weekly reaches us regularly every week. We would recommend it to those wishing a first class illustrated weekly. Sample copy at our office.

NEW BUILDING.—We understand that Messrs Faber & Linenfelser will soon after the opening of spring commence the enlargement of their store, and also the building of an elegant new residence. Success gentlemen!

ENCLOSED.—The new building of Peter Hitz is up and enclosed, almost ready for occupancy.

PERSONAL.—D. L. How, Pres. of the 1st Natl. Bank of Shakopee was in town yesterday, looking every inch the gentleman of old.

Commissioners Rousse, Gotshall, Kelly and Griffin were in town attending to their duties as commissioners, and faithfully performed the same. They left for their homes Friday afternoon.

And as we expected, "gone never to return."—My dear Mr. Harris, and his last with all the belongings of married life. Mr. H. and his lady left on Sunday for St. Peter where they intend to reside.

DIED. Melville Noyes at the residence of his mother in Carver, on March 3d after a short illness. (See editors remarks in another column.)

MARKET DAY.—Last Saturday was fair day and a "fair" it was. Business among the merchants was good. Wheat came in in large quantities. Stock changed hands very freely, there being a large number of buyers from abroad, among whom we noticed George Lincoln, Esq. of Ft. Snelling and Capt. Kelly of Henderson.

WOOD.—It is estimated that 6000 cords of Wood has been banked here this winter.

WHEAT.—This article brought 160 on Saturday.

BUSINESS.—Business has been quite dull for the last two weeks, with the exception of Saturday, owing to the bad condition of the roads.

BLOCKADE.—The roads leading to Waconia from this place were entirely blocked up on Monday and Tuesday, a gang of men were at work shoveling snow Wednesday and soon made them passable. The Glenwood road was also badly drifted but the stage got through on good time on Monday.

PERSONAL.—W. A. Wells, Gen. Agt. of the St. Paul Fire Marine Insurance Company, was in town several days last week.

Frank Stephens, now of Faribault, and who was here several years ago buying Ginseng, passed through town on his way to St. Peter.

W. G. Guts of St. Paul, J. A. C. Flood of Waterville and John McMullen of Shakopee, each gave us a pleasant call during the week.

CHALLENGE.—Mr. E. S. Brown who teaches a private school at this place, hereby gives notice that he challenges both branches of the Carver public school, taught by E. S. Gorman and H. J. Schubert, to test which school shall claim the honor of the "best speller." If accepted, the time shall be set by the accepting parties.

NEW HAMPSHIRE ELECTION.

Rep. leads carry the State by Three Thousand Majority.

CONCORD, March 11.—(Corrected returns from 181 towns sent up, Harrison 54,863, Sinclair 31,756.)
The republicans have elected four out of five congressmen, and nine out of twelve senators. They have probably about seventy majority in the House. Harrison's majority is somewhat reduced from last year.
CONCORD, N. H. March 11.—Returns from one hundred and seventy-five towns give Harrison (republican) 33,792; Sinclair (democrat) 30,907. Republican majority 2,885.
Fifty-eight towns and small places remain to be heard from, which are about equally republican and democratic. It is probable that Harrison's majority will be about 3,000. The whole vote will probably exceed 72,000, the largest vote ever polled in the State. The legislature will be largely republican.

FREIGHT FROM MERRIAM.—We are again under obligation to the gentleman agent at Merriam Station, Geo. L. Hamilton for the following exhibit of freight sent therefrom for the Month of February, as follows:

Articles.	Pounds.
Flour,	183,009
Wheat,	220,000
Barley,	23,390
Misc.,	8,464
Hoop-poles,	200,000
Butter,	2,332
Eggs,	100
Hides,	395
Empty Kegs,	780
Total	637,861

PERSONAL.—Senator C. W. Griggs arrived home last Saturday evening, having finished his legislative duties at the capital for this winter. The Col. looks well after his somewhat laborious session at the seat of government, amongst a demoralizing set of radicals.

Hon. I. L. Lewis has also been under-stand, returned to his home at Watertown.

Hon. L. L. Baxter of Scott, was in town during the week, accompanied by Hon. I. M. Brown, and Frank Mead, of Shakopee.

HARPER'S BAZAR.—Like all the publications of this firm, the Bazar is daily growing in favor with the public. The ladies would not be without it. Its literary articles are also superior to those found in the magazines of the day.

CONTRACT.—Our townsman J. W. Gregg will soon leave town for Stillwater, where in conjunction with his partner he has taken the contract to make 1,000,000 brick, for the erection of the County buildings. We are sorry to part with Mr. Gregg, as he has been identified with Chaska for years past, and has become a part and parcel of the same. His family will take up their residence in Mankato, which place Mr. Gregg intends to make his future residence. Our loss will be Mankato's gain.

DANGEROUS.—We are informed that the crossing on the river at Shakopee is considered extremely dangerous. Is it not equally dangerous here?

REPUBLICAN CONVENTION.—A republican State Convention is called to meet in St. Paul on the 13th day of May. Carver Co. is entitled to a representation of 3 delegates.

CALKING.—Our friend James Ryan is stopping up as he usually is every spring, about up seams in the leaky bottom of such boats as happen to be laying at our levee. James is master of his profession, and does a job up as it should be.

BEWARE.—The premises of Mr. Byhoffer in town, were stealthily visited on last Friday night, and between \$95 and \$30, worth of Pork stolen therefrom. As this is not the first act of the kind committed in town this winter, our citizens should see that nothing is left at the mercy of this or these micro-ants. Cannot some measures be taken to smoke out this den of thieves?

SPEAKS WELL.—The large amount of lumber daily passing through town, for the interior towns of the county, speaks well for the general prosperity of our farmers. A large number of them are erecting commodious buildings upon their farms. A few years hence will witness a great change in the appearance of farm property in Carver County.

BUILDING.—From what information we are able to gather about town, we are led to the belief that a large number of buildings will be erected in town during the coming season. Four new structures are already in course of construction.

LAIT OVER.—A very interesting communication from St. Paul is now lying hid over this week, owing to the crowded state of our columns.

MERRY MUSEUM.—The March number of this highly entertaining and finely illustrated juvenile monthly is before us. The literary articles are of the present order, such as you would wish your children to read. Terms \$1.50 per year. Address H. B. Fuller 245 Washington street, Boston.

DISTRICT COURT.—The March term of Court commences on next Tuesday. We are informed that the calendar contains quite a list of suits. Judge Vandenberg will preside.

COMMUNICATION.—We are in receipt of a communication from Carver, which we cannot publish, for the reason that the writers name is not given, not necessarily for publication, but as a guarantee of good faith.

LAWS.—We shall soon submit the laws of the last legislature to the inspection of our readers in supplement form. We shall publish them from week to week until all published. Now is the time to subscribe and get them complete.

EVERY SATURDAY.—"Foul Play" the popular weekly written by Chas. Keade, and John Borensult, is still continued, and grows now more interesting with every recurring week. Besides "Foul Play" Every Saturday embraces a choice selection of foreign literature thus giving the general reader, at a slight cost, the best specimens of foreign prose and poetry. Pub. Messrs Ticknor & Fields, Boston, Mass.

NOTHING LIKE IT.—Full weight and uniform perfect goods, such as Best Chemical Salverins.

FINANCIAL STATEMENT.—We shall endeavor to publish this important document in our next issue. We have been at work upon it for some time past and hope to have it completed soon.

PURCHASED.—Mr. Fred Ellis has purchased the ferry of Mr. Barker. The consideration fee, was we believe \$250. We are informed that Mr. Barker intends removing from the county at an early day. The ferry is open for travel.

A LOUD CALL.—Our sanctum was completely taken possession of on last Wednesday by a second edition of "good fellow" known in Hastings as Johnny Rhodes of McCormick Reaper fame, accompanied by a genial spirit—Law Smith, agent for the same celebrated Reaper in Scott and Carver County. We shall have something to say about the Reapers and the gentlemanly agent in the course of a few months.

BALL.—By invitation we were present at the Ball given by Messrs. Bloomquist & Swenson, at the Planters House in Carver on Friday night March 6th. It was a very pleasant affair and reflected much credit upon the gentlemanly and enterprising hosts of the House. They have already established an enviable reputation as hoteliers.

CARVER ITEMS.—Our Carver correspondent has been absent from home and we are this week minus our usual batch of interesting items.

THE WEATHER.—The weather has moderated greatly within the past week, and we are now bordering upon spring.

Execution of Roach.

Andreas Roach, the man who last spring murdered a boy named Joseph Saurer, near Lake Jefferson in Nicollet county, was hung at St. Peter on Friday at 11 o'clock A. M. He protested his innocence on the scaffold. Rev. Mr. Ueland, of this town, attended the prisoner before his death, and to him and the Rev. Mr. Reutter, of New Uim, the prisoner repeatedly asserted that he was innocent, and that his son (who was the principal witness against him) was the guilty party. The wife of the deceased refused to take possession of the dead body and it was buried by the authorities. There were only about fifty persons present at the gallows. The fall from the scaffold to the end of the rope was about six feet.

John Gut is under sentence to be hung in St. Peter this year. He is now imprisoned there, we believe.—See our Courier.

BABY'S LETTER

The following letter, purporting to be from a young girl, was found in a box of old letters, and was so well written, and so full of sense, that it is given to the public. It is from a girl named Baby, who is now a year old.

Dear mother,

I am a baby, and I am a girl. I am a year old, and I am a girl. I am a baby, and I am a girl. I am a year old, and I am a girl.

Encouraging Signs

We heard much from our Radical friends, last fall, by way of explanation of the defeat which they suffered. "Apathy" and "local causes" were assigned as reasons for the defeat.

IN MEMORY OF JOHN DILLON

There is a certain no lack of faith displayed in the following which is to be believed, to be found in Sunday churchyard.

Very different is the cheerful, not to say rollicking, tone of the inscription over a certain Gable's tomb:

Here lies the corpse of Mr. Charles, who died the 11th of the month of May, 1861, at the age of 70 years.

This is as bad as the unkind hint conveyed in the following:

"The following is a copy of the protest offered in the House on the 23d. The protest was to suspend the rules that the protest might be read and placed on the journal, was rejected on the 31st—41 to 41."

The Valley Herald

Official County Paper.

BY F. E. DU TOIT.

CHASKA, SATURDAY, MAR. 21, 1886.

FROM SAINT PAUL.

SAINT PAUL, March 6th, 1886.

EDITOR VALLEY HERALD:

The labors of the tenth legislature are over and its record is before the people. In this brief communication I do not propose to assume the role of either critic or apologist; not, however, but there have been acts capable of criticism and others worthy of praise, but I prefer to let your readers be their own judges of what has been done or what has been left undone. Whatever other fault may be found, certainly it has been a busy legislature. In point of ability the Senate was, I am inclined to believe above an average, while the House some wicked writers say as being below mediocrity. This is so delicate a question to discuss that I will only say that among the members there were a few who are our best men and whom the people may never hesitate to honor. Carver County has certainly a good record. Col. Griggs in the Senate has been a faithful guardian of the Valley interests and your people do well to appreciate him. Senators appreciate his good qualities. Mr. Lewis in the House returns to his constituents with the satisfaction of having done his whole duty and with the good opinion of all with whom he has come in contact during his session.

Your neighbors of Scott County, too, as you calculate themselves that their members did their official duties and return to their constituents with the friendship of all their legislative associates. Col. Baxter has been a leading member of the Senate during his two years in that body, not only having the confidence of his political associates, but also who differ with him politically. He is regarded as a wise, capable and a legalist, and the true and constant advocate of a healthy economy and a rigid reform public affairs. If there were more of the same sort in whom the people could important trusts, then and come that happy state of affairs which we are all so desirous to see in our country is to keep serving him the same way. The interests of that county in the other branch were also guarded by Judge Henry of Belle Plaine. The Judge always talks to the point and never fails to vote with the majority side.

to New Hampshire Election - Great Radical Losses.

The returns from New Hampshire are in. On a poll of 76,000 votes he was elected by a large majority over the State—the radical majority of the State by 2,300 majority, or a gain of 50 per cent. of the radical majority, for the enormous vote of 10,000, to have had a majority of 5,000, in loss was suffered with Grant at the end of their ticket as candidates for president. At the fall election the majority was 2,300, and enough more to try the State.

To Be Considered.

The citizens of the different towns of the County should bear in mind, that the action of the County Commissioners abolishing the Road and Bridge Fund, makes it incumbent upon them to establish such rates of taxation within each town organization at their annual meetings in April as will support the Roads and Bridge within said organization. It should be taken into consideration and only such amount levied as will meet the wants of the public. Notice for the annual town meeting for the town of Chaska has been posted. The election takes place on the 7th of April.

To Be Considered.

The citizens of the different towns of the County should bear in mind, that the action of the County Commissioners abolishing the Road and Bridge Fund, makes it incumbent upon them to establish such rates of taxation within each town organization at their annual meetings in April as will support the Roads and Bridge within said organization. It should be taken into consideration and only such amount levied as will meet the wants of the public. Notice for the annual town meeting for the town of Chaska has been posted. The election takes place on the 7th of April.

SUMMARY OF THE WEEK.

GENERAL NEWS.

The Government expenses during February are stated at \$24,000,000. The receipts from customs for the week ending March 7th were \$3,103,684. The final argument in the McClellan case was made on the 9th, by David Dudley Field.

The Postoffice money order system throughout the country is said to be paying a profit of \$250,000 annually. The Senate, on the 11th, in Executive session, confirmed the nomination of J. Ross Browne as Minister to China, and Charles K. Tuckerman as Minister resident to Greece.

Fractional currency issued for the week ending March 7th, \$187,000; National Bank notes issued \$112,130; Fractional currency redeemed and destroyed \$297,000. Received from internal revenue for the week \$5,483,639, and for the fiscal year to same date \$18,548,201.

A Washington dispatch says the Senate Military Committee has resolved not to take any action at present on the nomination of Edwin as Secretary of War, and it is probable that the matter will be undisturbed on the table till the end of the impeachment proceedings.

On the 11th, Attorney General Stanbery handed the President his formal resignation as a member of the Cabinet. The President accepted it on the 12th, and Mr. Stanbery will be one of the counsel for the President in the impeachment trial.

General Lorenzo Thomas attended the Cabinet meeting to-day as Secretary of War *ad interim*. The President declines to receive official papers through Secretary Stanton's office, but desires them to be sent direct to the Executive Mansion.

The New York Times Washington dispatch says: "The bill reported by the Election Committee, in Butler's case, was drawn with special reference to the fact that it establishes a final precedent, and was passed by a large majority, many Democrats voting for it. It provides that all persons relieved from political disabilities shall not be required to take that portion of the test oath which states that they have not given aid and comfort, etc."

FOREIGN INTELLIGENCE.

Admiral Farragut and his officers were warmly received by the municipal authorities of Naples. The trial of Captain Mackay was concluded on the 11th. The jury brought in a verdict of not guilty on the charge of murder.

It is reported that the Fenian prisoners who were recently captured at Dungarvan have unanimously refused to accept pardon on condition that they would leave the Kingdom.

Gen. Dix, the American Minister to France, arrived in London on the 11th, where he was to remain two or three weeks, on business connected with the Alabama claims.

A London dispatch of the 10th says the latest news from Abyssinia was to the effect that King Theodoras had arrived in the immediate neighborhood of Magdela with his troops and war material, and the advance of the British expedition was steadily pushing ahead.

A Berlin dispatch of the 11th says: "It is reported here that a proposition was recently made to Lord Stanley to submit the Alabama claims to the arbitration of Prince and that he was willing to entertain the proposition so far as it applied to the question of indemnity, but refused to submit the other points in dispute."

In the British House of Commons, on the 6th, Mr. Shaw Le Ferre, member for Reading, called up the question of the Alabama claims, and made a long and eloquent speech, urging the settlement of this question on the plan proposed by the American Government. Lord Stanley praised the pacific tone of Mr. Le Ferre, and warmly complimented Mr. Adams for the spirit he had displayed. He affirmed the readiness of the British Government to submit all points at issue to arbitration, save the one involving the right of Great Britain to recognize the Southern States as belligerents. Mr. Forster thought Mr. Seward's views of the question of the recognition of the Alabama claims deserved better treatment and more careful consideration, as being perhaps, views that were right, and the settlement of this question the appointment of a mixed commission for the proper adjustment of the question. Mr. Gladstone doubted if reparation for the Alabama depredations was due the United States; but thought it right the question should be referred to a commission. He closed with an assertion that the feeling between the two countries is perfectly friendly, and that England will sustain a fair and honorable adjustment.

In commenting on these proceedings, the London Times says the debate must convince the United States that the Government of England wishes to settle the Alabama claims in the American sense, and the failure of Great Britain to refer the Alabama arbitration is due to no desire to shun her just obligations. Mr. Seward has now to meet Lord Stanley in like spirit to end the misunderstanding.

THE WEST.

Great and destructive freshets throughout the West were the result of the heavy rains during the first week of March. The Cheyennes are on the war path against the Sioux. They occasionally kill and scalp a few white people, by way of diversion.

POLITICAL ITEMS.

A Radical paper published in Winston, Conn., in speaking of the Johnson-Grant correspondence, says: "They (the Radicals) would believe Grant, even if they knew he was lying." Of course, then, they would believe Johnson, even if they knew he was lying."

One of the best jokes of the day, since the demise of A. Ward, is perpetrated by the New York Tribune in saying that the impeachment matter "is singularly free from partisanship so far as the Republican party is concerned." Good!

The New York Democratic Convention assembled on the 11th. Every delegate was present. The Convention elected to the National Convention, Theodor Tilton, of New York, and John A. Murphy, of New York.

The Radicals carried New Hampshire on the 10th, but by a narrow majority. If the Democracy in that State continue gaining in strength up to November, they may have the State, next year, if as determined as the last, will be crowned with triumph.

A Western paper, alluding to the announcement that General Grant's father is writing the life of that notorious warrior, thinks there must be some mistake in the matter, and adds: "He is no more competent to write the life of anybody than he is to translate the Apocalypse."

New York journals of the 9th inst. contain additional news of the Democratic victories in the State of New York at the late elections in that State. An Albany dispatch of March 8th states that the returns of town and city elections from thirty counties, all elected, or half the Democratic vote, was a Democratic gain of seventy-three Supervisors over last spring. The gains are almost entirely in the rural districts.

—W. W. Holden, the Radical candidate for Governor in North Carolina, was elected in the Raleigh Standard, in June, 1861, and was then beating up recruits to assassinate Abraham Lincoln and General Scott. On the 5th of that month he made this announcement: "It is a pity that I have not been formed in Washington, in the hands of Jeff. Davis. Who will plot for the heads of Abraham Lincoln and General Scott?" He has what might be called a pre-emption right to be a Radical.

The charter election of New Brunswick, N. J., on the 9th, resulted in the success of the whole Democratic ticket by over 50 majority—a Democratic gain of thirty per cent. The election in Salem, N. J., was carried by the Democracy; majority 133, being a gain of 72. Lincoln, Ill., was elected on the 9th, majority 100. The city election of Bridgeport, N. J., on the 10th, was carried by the Democrats, who gained 112 from last spring. As the present election was for a year, the Democrats will be in a position to carry the city for a year.

A correspondent of the Boston Post, writing from Portland, Maine, says that, besides the tremendous Democratic gain of over one thousand at the recent election in that city, in Lewiston we have gained 112 from last spring. As the present election was for a year, the Democrats will be in a position to carry the city for a year.

—In Brooklyn a German who lost a leg in the war and had tried to get a living as a peddler, stationary, was obliged to sell his stock to feed his family, and then called at a house and asked for food. He was arrested and told the Judge he begged because he would not steal, and the court excused him with the caution to do so no more.

—The Baltimore Sun says the new Senator from Maryland, Mr. Vickers, "is a man of sound conservatism in politics, temperate in tone and action, and is known as an able lawyer and a gentleman of refined culture. He was originally a Whig, but has since become a Democrat. He is a native of Maryland, and has spent his entire life in that State. He is a member of the Maryland bar, and has been practicing law for many years. He is a man of high character, and is well respected by his fellow-citizens. He is a man of sound judgment, and is well qualified to represent his constituents in the Senate."

—The prediction, says the Chicago Times, that the impeachment trial would be a show, has already been verified, to a certain extent, as the trial has been a mere display of legal skill, and has not been a serious contest. The trial has been a mere display of legal skill, and has not been a serious contest. The trial has been a mere display of legal skill, and has not been a serious contest.

In the British House of Commons, on the 6th, Mr. Shaw Le Flare, member for Reading, called up the question of the Alabama claims, and made a long and eloquent speech, urging the settlement of this question on the plan proposed by the American Government. Lord Stanley praised the pacific tone of Mr. Le Flare, and warmly complimented Mr. Adams for the spirit he had displayed. He affirmed the readiness of the British Government to submit all points at issue to arbitration save the one involving the right of Great Britain to recognize the Southern States as belligerents. Mr. Forster thought Mr. Seward's views of the question of the recognition of the Southern States were served better treatment and more careful consideration, as being, perhaps, views that were right and sensible. John Stuart Mill advised the appointment of a mixed commission for the proper adjustment of the question. Mr. Gladstone doubled his reparation for the Alabama depredations right the question should be referred to a commission. He closed with an assertion that the feeling between the two countries is perfectly friendly, and that England will sustain a fair and honorable adjustment.

In commenting on these proceedings, the London Times says the debate must convince the United States that the government of England wishes to settle the law in this case in the American sense, and the failure of Great Britain to refer the claim to arbitration is due to no desire to shut her just obligations. Mr. Seward has met Lord Stanley in like spirit to end the misunderstanding.

in Moderator by 75, Republican last year, in both we gained from last fall 104; in 1860 we gained from last spring 113. Thus, in eight towns, the Democratic gains have been 1,115.

The Radical newspapers claim that the trial of the President will be a judicial and not a partisan one. Here is what Thad. Stevens said, in speaking to the Senate about the affair:

"Let him hope who dares to hope that so high a body as that Senate will betray its trust, will forget its own acts, will tread back the one action, will expose itself in the face of the nation. I will not be one who dares to do it, and you show me one who dares to be regarded as infamous by posterity. Let me see the traitor who dares to look back upon his steps, and vote on the other side."

And yet the Radicals have the impudence to claim that the trial will be a fair one!

The Baltimore Sun says the new Senator from Maryland, Mr. Vickers, is a man of sound conservatism in politics, moderate in tone and action, and is known as an able lawyer and a gentleman of refined courtesy. He was originally a Whig, but has acted for some time with the Democratic party. He has never, however, sought political preferment, but was chosen State Senator from Kent county, and served in the last Legislature, but declined a reelection last fall. Though not aspiring to be an orator, Mr. Vickers is yet a very good speaker and debater. He resides at Chestertown, is about 55 years of age, and is universally respected by men of all parties. No man in Maryland will suppose him not worthy to represent the United States Senate.

The prediction, says the Chicago Times, that the impeachment trial would be a show, has already been verified, to a certain extent, as the Senate has decided to restrict the freedom of the galleries and limit the number of dead-heads. Whether or not there is to be a regular admission fee, is not stated, but the clerk, the sergeant at arms, and the marshal, will be seen at the door, and the trial will be a show, and not a trial.

The influence of the gallery and pit in all shows is very well established; and it is probably the intention of the "impartial" party running the concern to provide for the gallery and pit, and to let the people see the trial as it is, and not as it is presented by the managers.

The gentlemen in the House who originated impeachment, and others who applaud them, are in a certain sense consistent. Recalling the time on the day of the rebellion, when I stood in the Senate, almost alone, insisting upon the duty of the Government to uphold the Constitution, and the traitors who threatened, I recall a class of men in and out of Congress who lacked the courage to defend either. Standing on the same platform as I, I look at the traitors around and see them men, now grown bold enough in the place of their former weakness, to stand up and defend the traitors.

A Radical paper published in Windsor, Conn., in speaking of the Johnson correspondence, says: "They (the Radicals) would believe Grant, even if they knew he was lying! Of course, then, they do believe him."

One of the best jokes of the day, since the demise of A. Ward, is perpetrated by the New York Tribune in saying that the impeachment matter "is singularly free from partisanship so far as the Republican party is concerned."

The New York Democratic Convention adjourned on the 11th. Every delegate was present. Delegates were chosen to the National Convention. The Delegates at large are Horatio Seymour, S. Tilden, Sanford B. Church and H. C. Murphy.

The Radicals carried New Hampshire on the 10th, but by a rebel majority. If the Democracy in that State continued pushing in strength up to November in the same proportion as they have of late years, their next effort, if as determined as the last, will be crowned with triumph.

A Western paper, alluding to the announcement that General Grant's father is writing the life of that notorious war, thinks there must be some mistake in the report. "He is no more competent to write the life of anybody than he is to translate the Apocalypse."

New York journals of the 9th inst. contain additional news of the Democratic victories in the State of New York at the late elections in that State. An Albany dispatch of March 7th says that the returns of the vote in the election of March 7th, show a Democratic gain of seventy-three Supervisors over last spring. The gains are almost entirely in the rural districts.

Wm. W. Holden, the Radical candidate for Governor in North Carolina, was editor of the Raleigh Standard, in June, 1861, and was then beating up recruits to assassinate Abraham Lincoln and General Scott. On the 5th of the month he made this announcement: "It is said a plot has been formed in Washington, to massacre Jeff. Davis. Who will plot for the heads of Abraham Lincoln and General Scott?" He has what might be called a pre-emption right to be a Radical.

The charter election of New Brunswick, N. J., on the 9th, resulted in the election of the Democratic party by a majority of over 400 majority—a Democratic gain of thirty per cent. The election in Salem, N. J., was carried by the Democracy; majority 152, being a gain of 72. Lincoln, Ill., went Democratic on the 9th; majority 100. The city election of Bridgeport, N. J., on the 9th, was carried by the Democracy; majority 113 from last spring. At the recent election in Belle Plaine, Iowa, that town went Democratic for the first time since its organization.

A correspondent of the Boston Post, writing from Portland, Maine, says that, besides the tremendous Democratic gain of over one thousand at the recent election in that State, the Democracy have gained from last election 450; in Gorham we gain 55, reducing the majority from 120 to 65; in Palmyra we cleaned the Republican officers all out; in Windham we reduced the majority of 113 last fall to 30; in Cape Elizabeth we elected a Democrat.

Said a near-sighted Congressman to "Tilton, 'What would you do, Mr. Tilton, if you could not distinguish your friends from the enemies of the country?'" "I would," replied the Congressman, "I would try to distinguish myself on the floor."

The statement is made that some men in New York carry on a regular trade in little boys. They seize upon them in the streets and transport them clandestinely to the country, where they are sold to the West, where they are bound out at a very low price.

CHASKA SATURDAY, MAR. 28 1868.

A SQUARE FIGHT.

Our radical friends the Hon. Alex. Ramsey, and the Hon. Ignatius Loyola Donnelly, have opened the Senatorial fight in earnest. The fight at present is confined to the proposed formation of a new land district, which is to be located in Douglas County; but in our opinion this is merely a fore-shadow of what is coming. They both have very polite ways of laying their claims before the public. We copy the following comments thereon from the Shakopee Spectator.

As usual, "Bluff Alex." is reserved, dignified, polite and agreeable, while Ignatius is plucky, shrewd, unscrupulous and very evidently mad—so mad, in fact, that he slips over fearfully. The ex-Loyola lays down his ultimatum by sending a list of his friends residing in the proposed district, and swears by the horns of the altar that the bill counting the district shall never pass the House unless Alex. will make selection of the Register and Receiver from that list. Alex. responds in a dignified note to the effect (politely and elegantly expressed) that he can just go—to the devil—and that as long as he is Senator from Minnesota he proposes to lose the job, and furnish bread and butter to only those who stand by him. Upon this Donnelly roars with wrath, and accuses Ramsey of coquetting with Norton and Johnson—of "holding the bucket while Norton milks." (N. B.—We have too much respect for Mr. Norton to believe this, and hence pronounce it an "outrageous black republican slander.") Here the matter rests for the present, and we anxiously await the "few remarks" which Ramsey will probably submit to a candid world.

Impeachment Trial.

The Managers of the Impeachment on the part of the House filed their replication yesterday. To the answer of the President to the Articles, exhibited against him. The replication is simply a denial of the validity of the answer, and a reassertion of the President's guilt. The Senate ordered that the trial shall commence on Monday next. In view of the fact that the House has been collecting evidence for nearly a year, and at a vast expense, the short time allowed the President to meet his accusers, will strike many fair-minded men as a gross outrage. It makes little difference, however, with the result. The members of the Senate, with few exceptions, have prejudged the case, and evidence is useless.—Pioneer.

Connecticut Election.

Connecticut will vote for state and legislative officers on Monday, April 6th. The following nominations have been made by the respective parties for state officers:

FOR GOVERNOR.
James E. English..... Marshall Jewell
FOR LIEUT. GOVERNOR.
Ephraim Hyde..... Francis Wayland
FOR SECRETARY OF STATE.
L. Pease..... H. Appleman
FOR TREASURER.
Edward S. Manly..... L. W. Wissell
FOR COMPTROLLER.
Jessie Olney..... J. W. Manny.

John Quincy Adams

This gentleman, in a letter to a meeting in Baltimore, referred to President Johnson as follows:

"Exposed to a storm of frantic denunciations and party abuse more severe than any President ever confronted before, and debarr'd from efficient support by the infidelity inseparable from occupying middle ground between exasperated factions; abandoned by his own party and yet not adopted by its opponents—it has required a moral courage and firmness, an unalterable will and a conscientious devotion to an accepted trust, such as is seldom seen, to stand like a rock in such a tempest."

The Ohio House have voted to abolish the office of Commissioner of Statistics, which is held by Hon. B. D. Mansfield. Several Republicans voted with the Democrats in favor of the measure.

Chairman Town Com.

Carver County Finances.

It will be seen from the Auditors statement of receipts and expenditures for the past year, that the liabilities against the County are set down at \$15543.93, while the assets foot up \$18675.41, a clear balance in favor of the County, providing there were no delinquent taxes, of \$3131.48. Thus it will be seen that this County stands free from all debts, and owing splendid County buildings, which is a better showing than any Western County can boast off. Altogether Carver County is in a very prosperous condition, and with its rich agricultural lands and rapidly increasing population is becoming one of the first in the State.

We cannot close this short article upon our County finances, without referring in complimentary terms to our able Board of County Commissioners for the past few years, and also to our faithful and efficient County officials, who have ever and are still laboring zealously for the welfare of our County. We hope the management of affairs, may never fall into worse keeping, if not, we can safely predict a brilliant future for Carver County.

CALLER.—We received a brief call from W. B. Griswold editor of the Markato Union last Monday. Mr. G. reports the Union as flourishing.

We also received a short visit from Dr. Griffin and Mr. Brown of Carver, who dropped in while in town on business.

SCHOOL ELECTION.—The election of a School Board will take place at the District School House this evening at 7 o'clock P. M. This is quite an important election, and the citizens of this district taking an interest in school matters should be on hand, and participate in the election of school officers for the ensuing year.

"NORDISK FOLKEBLAD."—The first number of the above Scandinavian paper issued by Messrs. Leonard & Booth of Rochester is before us. It is a good looking seven column sheet, flying at its head as Editor Mr. Sneedoff Christensen, Terms \$2.00 per annum.

We are unable to give our usual amount of local news, owing to much of our time having been taken up in preparing the financial statement for press this week. A few advertisements are crowded out this issue, which we will make good at the end of the year.

GRAND THRATER AND BALL.—The "Cocordia" are rehearsing the great comical farce, "Paris in Pommern," which they will favor the public with on the night of Monday April 13th. A Grand Ball will wind up the whole affair.

NEW BUILDING.—Mr. Robbins, has erected a very neat and substantial two story frame building near the Catholic Church. It improves that part of town greatly.

Daniel Stone Esq. is now making additions and painting his Store on the corner of 2d and Walnut street preparatory to its being occupied by that Prince of Merchants, Henry Young.

We called to see at the Jail Frank Martin who is now confined there under a sentence of twenty days for assault and Battery on the body of one of the "softer sex." He was committed there on the 10th, and says that these are the longest 20 days he ever saw—he says he has kept an account, and he has been there confined forty days,—was sure of it.

MAPLE SUGAR.—We understand that "sap" runs good, and we have every appearance of a good sugar season.

STILLWATER REPUBLICAN.—The old "Messenger" is no more, it has passed from the hands of Van Vorhis, into those of W. S. Whitmore who changes its name as above. The first number is radical enough to unsettle anybody and anything having any common sense left. But nevertheless, in the way of a newspaper the *Republican* is an improvement on the old *Messenger*.

RIVER NEWS.—The river at this point and above has been clear from ice ever since last Monday. From appearances of things we do not apprehend that we shall be troubled with unusually high water this season.

Charley Wilson, was the first to leave our port for St. Paul, he loaded with wood and left on Tuesday. He was followed by Commodore Dunklee on Thursday morning, loaded with an immense cargo of wood. Adnial Foss left Friday, also loaded with wood. The "Great Leviathan," Messrs. Miller & Co. is now loading with wood and brick, and will probably clear port on Monday next. Mr. Howes' barge will probably load with brick soon. Taking everything into consideration, our levee has presented a very lively appearance for a week past. Everything betokens a lively boating season, a fact which we hail with delight.

MORAVIAN ACADEMY.—The present term commenced on last Monday, with a very fair attendance of scholars. Several students from Scott Co., attend the present term. Mr. Chitty the principal teacher is held in very high esteem by the pupils.

THE LADY'S FRIEND, FOR APRIL.—A beautiful and pathetic steel engraving, "Caught by the Tide," is the leading embellishment in the April number of this "Queen of the Monthlies." It is a story in itself. This is followed by the usual refined and elegant double Fashion Plate—so superior to Fashion Plates generally. "The Day after the Failure," is a touching picture. Of course, there are numerous engravings devoted to the fashions, and different styles of lady's and children's dresses, &c. The music for this month is the popular song, "Lady, do not Trust the Stranger," which is worth of itself the price of the number. The literary contents are excellent as usual.

SUPPORT HOME MANUFACTURE.—There is a strong prejudice against articles of American manufacture, and justly so, in many cases, but not so with D. B. De Land & Co.'s Best Chemical Saleratus. This is the best article in existence for cooking purposes, yet many families are using English Soda, when this Saleratus is much better, and by using it you are patronizing home production. For sale everywhere.

Carver Items.

On Special Correspondent.
THE RIVER.—The river is clear of ice for a mile above Carver and also below here to near Chaska. We hope a week from to-day (Monday) to see a boat here.

PERSONAL.—Capt. Harrie W. Holmes and Wm. B. Mohler left last Friday for the Chippewa River where they will remain for the present.

Capt. Geo. Houghton also left on Friday for St. Paul. We believe he is engaged in putting his boat in trim, Capt. Jas. Houghton will leave as soon as navigation fairly commences.

Our friend George Bleichner of Benton gave us a call last Tuesday. Judge Chatfield, Judge Vanderburg, F. Belfoy, Col. Baxter and F. E. DuToit, were in town on Wednesday last. Quite an array of legal talent.

DEAD.—Dr. Dover who has been residing for the last year with Mr. Hennings and Ludloff, died at the hotel of Mr. Schrimpf in this place on Saturday morning the 21st inst. Dr. Dover was a man of great intellect. He was without doubt one of the most thoroughly educated men in the State, and a good physician. But the Doctor was addicted to "strong drink" and it carried him away at last. He was buried on Sunday. He leaves no relatives in this County.

BOY ONE.—Thomas Newman, (our butcher) killed a "porker" last week which weighed after being dressed, 400. Beat that if you can farmers.

REPAIRING.—Our townsmen, Fred Miller, Reynolds & Krause are busily engaged in calking, painting, and repairing their barges preparatory to the summer work. We hope these gentlemen will pile up the "Greenbacks" the coming summer. They deserve it.

Messrs. Helgeson & Knutson are also at work upon their boat, and will be on hand at the opening of navigation.

EAST.—E. Holmes will leave for Chicago this week to purchase spring stock.
